	□ Social Activities	☐ Sleep	☐ Attention/Focus
	☐ Relationship	☐ Eating	☐ Daily Routine
Please describe how t	hese concerns affect you		
Have you had anythin	g like this before? ☐ Yes	□ No	
If so, when?			
Any other health conc			

EXPECTATIONS OF CARE

The primary system in the body, which coordinates health, is the NERVOUS SYSTEM.

The vertebrae (bones of the spinal column) surround and protect the delicate NERVOUS SYSTEM.

A MISALIGNMENT in the SPINE and NERVOUS SYSTEM is a condition called a VERTEBRAL

SUBLUXATION. A VERTEBRAL SUBLUXATION results in nerve malfunction, which results in less communication between the affected NERVES and the function of the BODY.

Vertebral Subluxations can have Physical, Emotional and Chemical causes and effects.

The information below will help us to see the types of **PHYSICAL**, **EMOTIONAL & CHEMICAL** stresses you have been subjected to, how they may relate to your present spinal, nerve and health status and whether they may have caused **Vertebral Subluxations** to occur.

I would like to experie	nce the following benef	its from C	hiropractic Care:		
Check all that apply	□ Symptomatic relie □ Correction of the □ □ Prevention of futu □ Healthier spine ar □ Optimal health on □ Nutritional Suppor □ OTHER	cause of t re probler nd nerve s all levels rt/Lifestyle	he problem as we ms system e Counseling	ell as relief of symptom	S
